## Donate a Brick 2024

Touray & Cessay established a range of projects in schools, villages, and Farms to provide education, support, and funding to enable people to find a sustainable solution to poverty.

As Touray & Cessay is a construction company, we have planned for 2024 to make a program to renovate or build new housing for several families that have 3 to 6 children and build housing for them with the donations received by "Donate a Brick"

Donations for this program can be made from £ 25,-

Each person that has donated will receive access to a camera which gives a live overview of the project for house building. Also you will receive info through our youtube channel where we will release videos showing you the progress and daily activities.

## JOIN & GIVE A BRICK TO BUILD

How many bricks do they need for a 3 bedroom bungalow.

If you define average sized house as about 1,200 square feet, the perimeter of the house might be approximately 146 linear feet (25' x 48').

Multiply that by a height of 8 feet to get a total square wall footage of 1,168. At 7 bricks per sf, you'll need about 8,176 bricks.

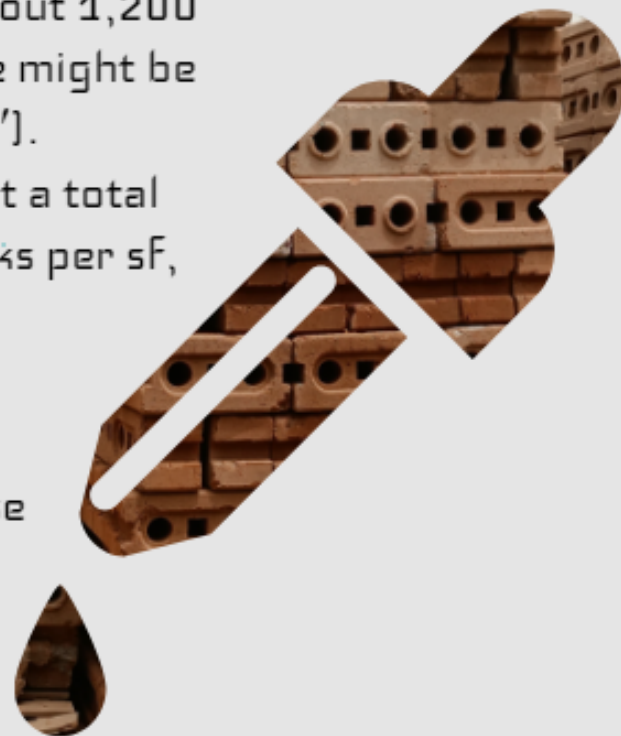

8,176 Bricks cost: £ 1,875,-

13,000 bricks to build a 5-roomed house

13,000 Bricks cost: £ 2,850,-

Costs of land: £ 2,000,-

The labor costs for the houses will be donated by  
Touray & Cessay Ltd

## Meet our Management Team

Mr. Jason Toussaint  
CEO

Mr. Karamba Touray  
COO

Mr. Lamin Sarr  
Operational Director

Mr. Omar Ceesay  
Financial Director

Donate  
a Brick  
2024

THANK YOU
